Re: AstraZeneca Project Laureate  
DAT CAD Services

Anthony,

As we are nearing the conclusion of CAD support you have provided to Skanska on the Project Laureate project in Cambridge, I wanted to formally thank you, Barry Parker, and your entire team for all of your work, and compliment your tireless efforts over the last 18 months.

The working relationship we developed was exemplary, and the services you provided were always timely and professional through a very changeable and developing project scope. I never had any worries about you meeting deliverable dates or flagging issues that were blocking your progress, as you were always pushing to meet the dates we set out.

I hope there is an opportunity for Skanska to work with you again in the future, and I would not hesitate to recommend your firm to others.

All the best,

Jeffrey Schramm  
Vice President  
MEP Stage 5 Lead
